Gene

IBOXSYSTEM is an innovative acoustic technology company. Based on an understanding of environmental acoustics, we follow the scientific approach of psychoacoustics and physiological acoustics to design and develop each acoustic product.

Flexible

IBOXSYSTEM Silence booth, a creative silent space, fulfilling your demands for various creative works. The self-developed carbon polymer composite panels, aviation aluminum and insulating glass forms the main structure of the booth.

Low carbon

IBOXSYSTEM is committed to the environment by using recycled carbon plastic material on office phone booths.

Evolution

IBOXSYSTEM is the creator and namesake of the "Silence Booth", starting from the first industrial of "silence Booth" in 2012, we launched the very first commercial "Silence Booth" 2016 in China. They are the evolutionary works of acoustic application technology.

The XR Series

Movable Office Booth

Make private calls and video conference in style with our classic office phone booth

The SR Series

Acoustic Office Booth

Work in a fun & productive environment

A private space that every employee wants

More than
50%

of people have difficulty concentrating in an open office.

(University of Sydney)

It takes
20

minutes to refocus after a distraction.

(University of California)

Affects
15%

of work efficiency in an open office environment.

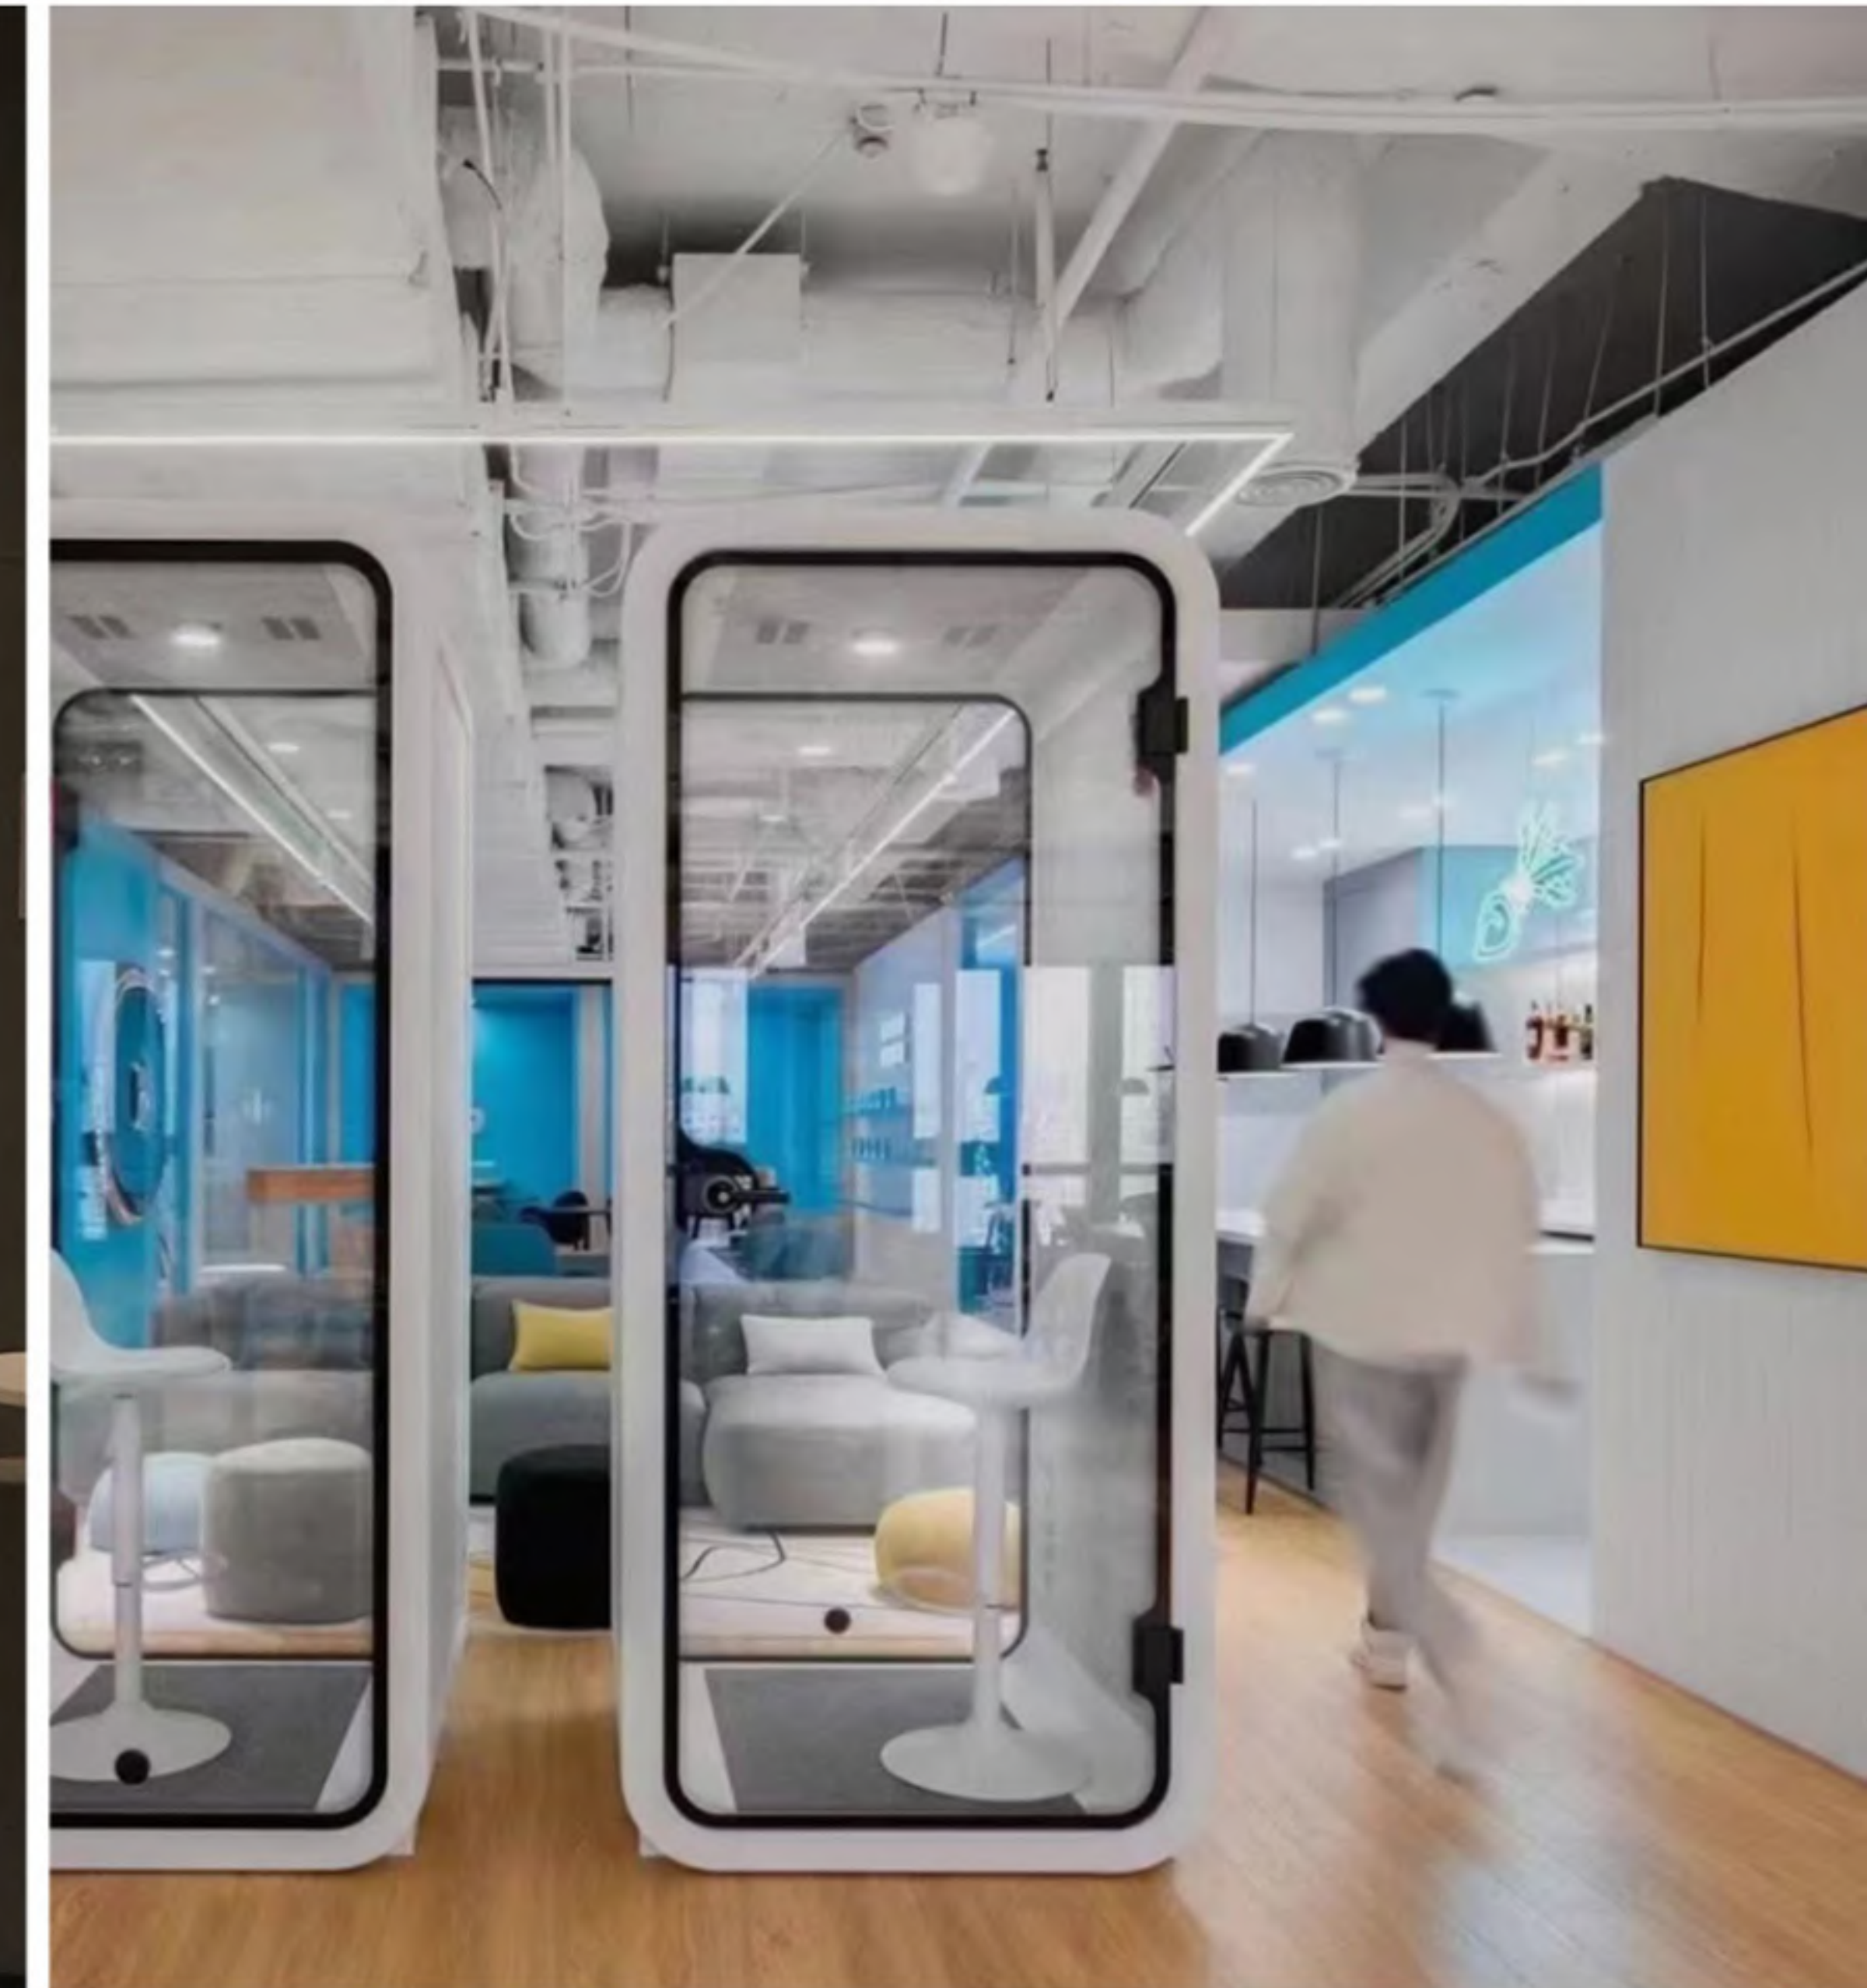

(BBC Capital)

IBOXSYSTEM

Successful companies are focused on making their employees happy at work

IBOX SYSTEM silence booth completely solves the noise and privacy problems of the open office, allowing employees to work more efficiently and happily, our silence booth is the common choice of Fortune 500 companies.

Office phone booth

Soundproof

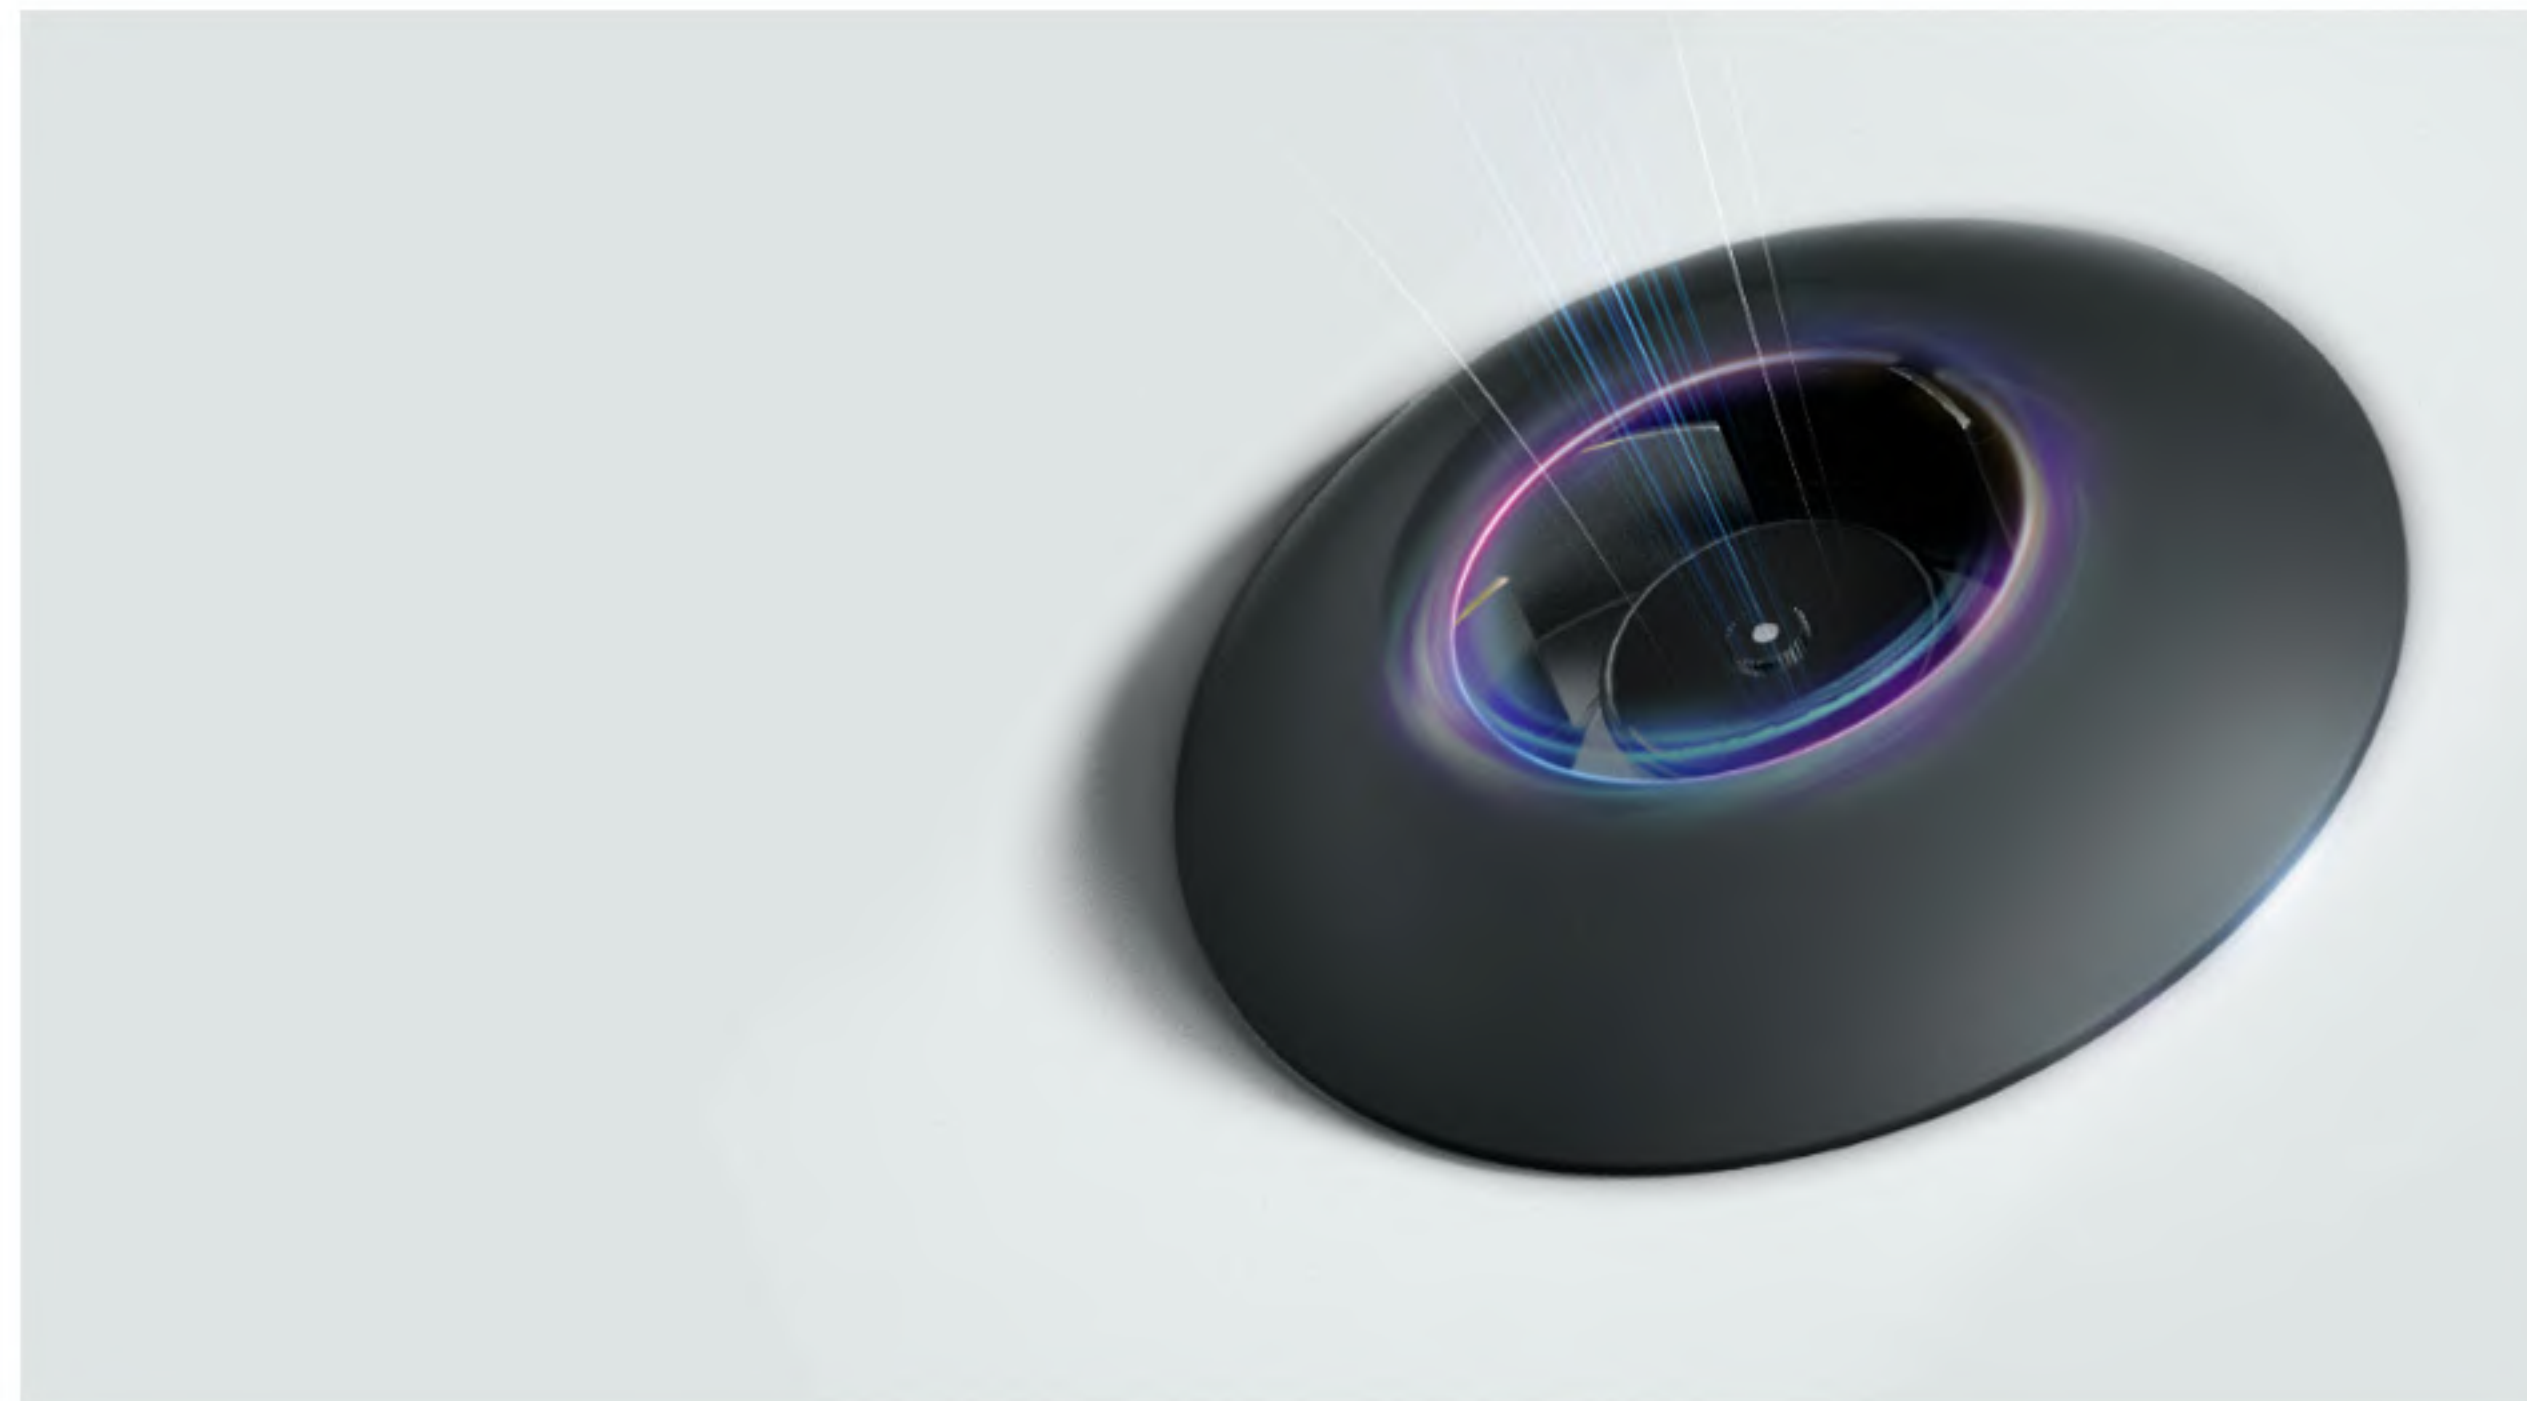

In our designing process, we fully utilize acoustic simulation software such as INSUL MARSHALL ACOUSTIC to iterate and obtain optimal acoustic performance.

Our booth is consistent with the standard of environmental rating Design value: $Rw+Ctr$ 25 db (+5 db) and $RT0.75$ s (+0.1 s).

Ventilation

Low noise air ventilation system with maze-like internal layout to ensure necessary air circulation in three minutes, while preserving soundproofing attributes of the booth.

Lighting

Equipped with 4000 K daylight color temperature LED lighting system (150 LX), it would satisfy the needs of normal activities. In the event of additional power requirements, a backup power supply is readily installed inside the booth.

Fastening Assemble

Our design philosophy has always emphasized on simplicity and minimalistic approach. Hence our whole model only utilizes 90-degree fasteners.

Soundproof glass

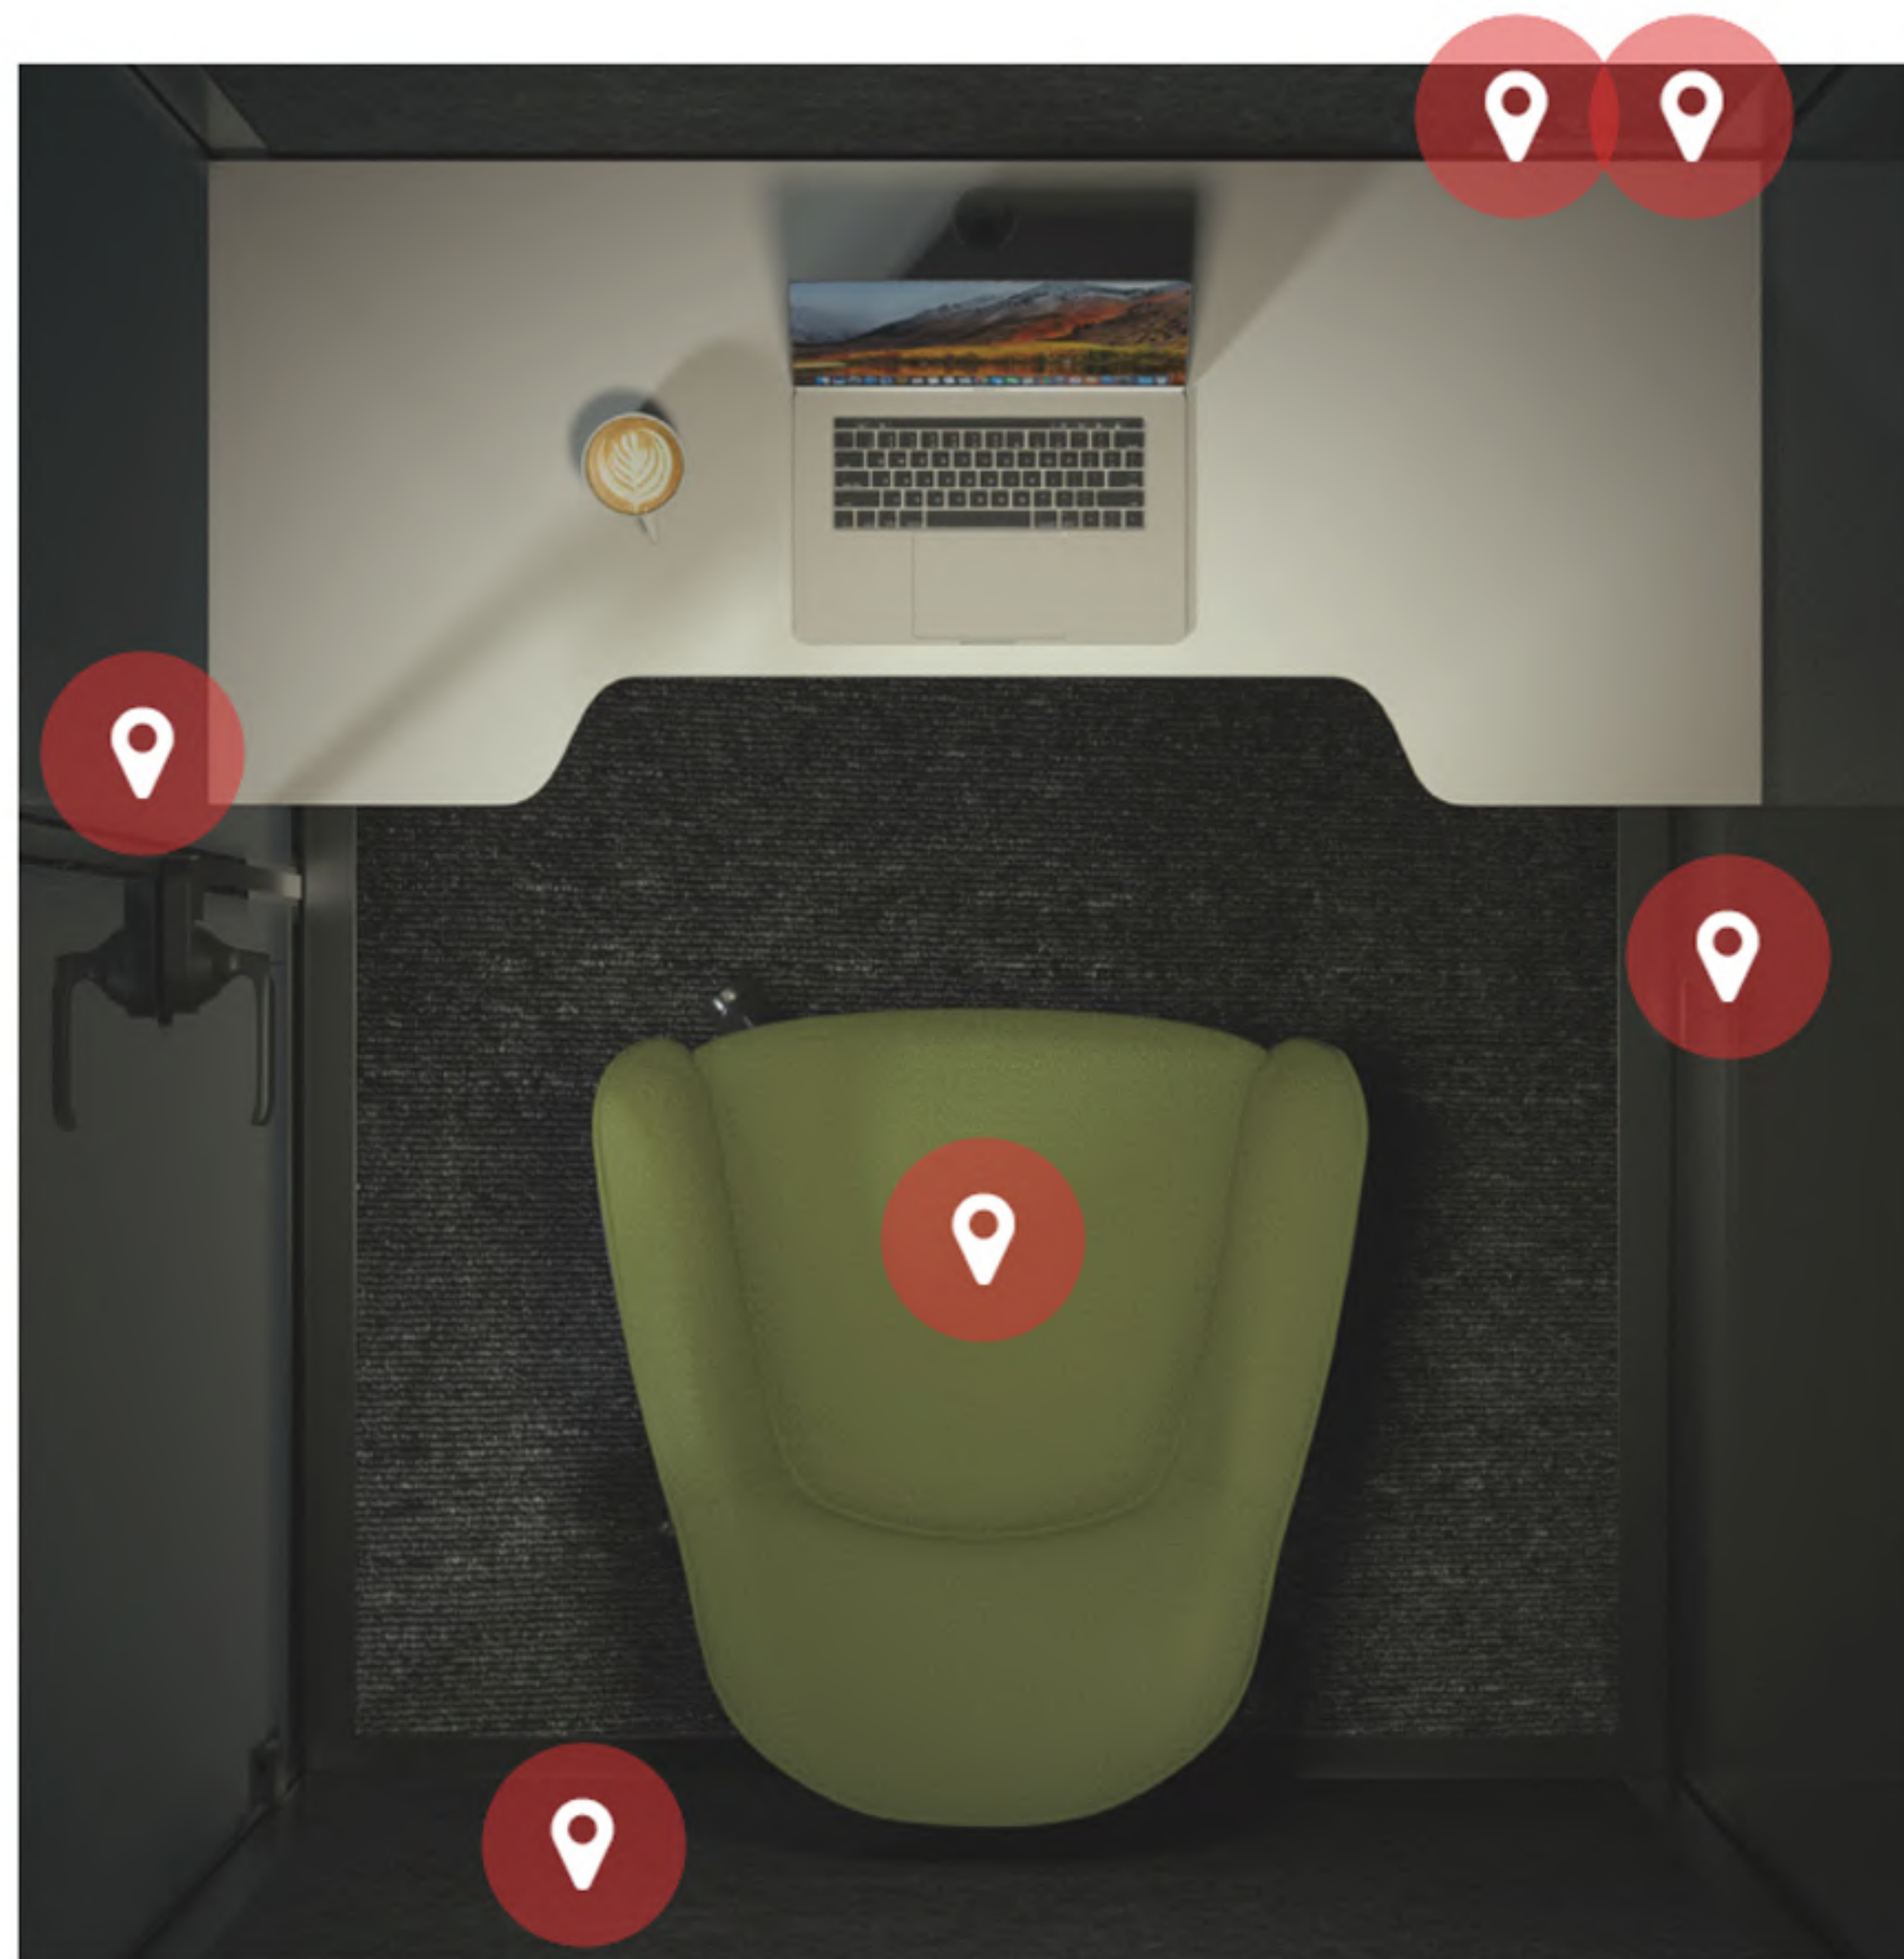

The silence booth utilizes the same type of noise-reducing glass found on high-speed trains.

Acoustic Interior

Our booth has an effective area of 60% covered Polyester Fiber sound absorbing material.

Optional furniture

We can recommend what type of aesthetic and acoustic furniture is optimal for your Silence Booth.

Motion Sensor

IBOXSYSTEM Silence Booth is equipped with motion sensor to control the lighting and ventilation system.

220V Power

Our booth is equipped with 12V-USB power supply and power rated for 100-240V/50-60Hz.

External cable hole

An external opening allows cables to easily pass into the booth. The opening may be closed when not in use.

A small space, satisfy your needs for creative design space.

4 different sizes to meet your needs

Model:
S

Exterior size:
D936 x W1000 x H2300mm
(36.85" x 39.37" x 90.55")

Inner size:
D900 x W840 x H2140
(35.43" x 33.07" x 84.25")

Capacity:
For one person

Model:
M

Exterior size:
D1236 x W1500 x H2300mm
(48.66" x 59.06" x 90.55")

Inner size:
D1200 x W1340 x H2140mm
(47.24" x 52.76" x 84.25")

Capacity:
For two person

Model:
L

Exterior size:
D1536 x W2200 x H2300mm
(60.47" x 86.61" x 90.55")

Inner size:
D1500 x W2040 x H2140mm
(59.06" x 80.31" x 84.25")

Capacity:
For four person

Model:
XL

Exterior size:
D2136 x W2200 x H2300mm
(84.09" x 86.61" x 90.55")

Inner size:
D2100 x W2040 x H2140mm
(82.68" x 80.31" x 84.25")

Capacity:
For six person

Waterproof

The silence booth is designed to be water-resistant and corrosion proof, so it can withstand the elements. It's made from high quality materials that allow for outdoor use in all types of weather conditions without worry about damage or repairs.

Thermal insulation

The booth is designed to preserve energy and maximize comfort, with the hollow glass construction providing superior heat preservation properties.

Lighting

Equipped with a natural light color temperature of 4000K and central main lighting system in the silence booth, this space is fully illuminated by 1600Lux LEDs.

Air conditioner

L/XL model silence booth is equipped with a top-mounted integrated air conditioning system, 500W/24V power consumption and 2500 cooling capacity. The evaporator's volume can hold 350m³ per hour for efficient temperature regulation while protecting Earth's ozone layer too.

Recyclable carbon composite panels

0.85

Damping coefficient

165Hz

Low-frequency blocking effect

Soundproof glass

Adopting double-layer insulating glass that meets the standard of high-speed rail use, making sound insulation easy.

Antibacterial surface

The booth is made of durable material that will withstand the outdoors. The surface has an antibacterial coating and it's wear resistant, meaning the booth should stay looking good for years to come.

3 different sizes

Model:
L

Exterior size:
D1586 x W2200 x H2300mm
(62.44" x 86.61" x 90.55")

Inner size:
D1500 x W2040 x H2140
(59.09" x 80.31" x 84.25")

Capacity:
For four person

Model:
XL

Exterior size:
D2186 x W2200 x H2300mm
(86.06" x 86.61" x 90.55")

Inner size:
D2100 x W2040 x H2140mm
(82.68" x 80.31" x 84.25")

Capacity:
For six person

Model:
2XL

Exterior size:
D4286 x W3000 x H2300mm
(168.74" x 118.11" x 90.55")

Inner size:
D4250 x W2840 x H2140mm
(167.32" x 111.81" x 84.25")

Capacity:
For eight person
